

# PIB Webinar: Since ancient era India has contributed a lot in Science

## By Correspondent

**Ranchi:** The PIB in association Field Outreach Bureau Dumka and CSIR-CMERI Durgapur organised a webinar on Aatm Nirbhar Bharat and Science for Global Welfare in which experts from education, science and research participated.

In the meeting the experts said that since the vedic period India has contributed a lot in the field of Science and with the use of science and technology

it was possible to address the challenges before the humanity.

Addressing the webinar ADG PIB Arimardan Singh said that Indian has always believed in the doctrine of World is One and any invention should not be confined to one country or period but should be used for the betterment of all.

He said that it is important that the country first becomes self reliant and use high technology for our prosperity in the lives of the people. He said that for the

first time the event is virtual through which efforts are being made to increase the scientific temper among the students, researchers and common people through panel discussion, workshops, live demonstrations, exhibitions etc.

Director of CSIR-CMIRE Durgapur Professor Harish Hirabi said that with the use of science and technology it is possible to address the challenges before the humanity. He said that scientific inventions not help in realising the dream

of self reliant India but also helps in welfare of the entire human community however for that it is important to develop effective and cheap technologies.

Principal of Ranchi Women's College Dr Abha Prasad said that science and technology have always moved upwards in the country. She said that there was a need to understand that without use of Science progress of human race is not possible and also stressed on the need to create awareness among the children for Science.
