CONTRACTOR

EXECUTIVE ENGINEER, TWAD,
PROJ.DN., RCWSS, TRICHY

NOTE:

1. If there is any discrepancy in percentage quoted in words and in figures, the lower of the two will be considered.
2. The tenderer is requested to quote the rate for the specified Tender period
3. If no rate is quoted for any period, the Departmental value will be taken as quoted price.

VI . SUBMISSION OF TENDER

1. The Tender should be submitted in the original tender documents as issued by the Executive Engineer.
2. Under no circumstances, the tender documents are transferable.
3. The tender documents should be placed in an Envelope, pasted, sealed and superscripted properly as **“OUTSOURCING OF OPERATION AND MAINTENANCE FOR PACKAGE – II UNDER A.M. ESTIMATE FOR THE PACKAGE - II OF CWSS TO 5 MUNICIPALITIES, 11 TOWN PANCHAYATS AND 3163 HABITATIONS IN RAMANATHAPURAM, SIVAGANGAI AND PUDUKKOTTAI DISTRICT FOR THE PERIOD FROM 01.04.2020 TO 31.03.2021 (FOR 12 MONTHS).**
4. **All the envelopes shall be addressed to the Executive Engineer, Project Division (Ramnad CWSS), TWAD Board, Trichy.**
5. The envelope shall bear the name and address of contractor to enable the tender to be returned in case it is declared late.
6. If the envelope is not sealed and marked as above, the Executive Engineer will assume no responsibility for the misplacement or premature opening of the tender.
7. The tender documents must be received by the Executive Engineer mentioned above not later than 15.00 Hours on **23.03.2020**. In the event of the specified date for submission of tender is declared a holiday for the Executive Engineer, the tender will be received upto to the specified time on the next working day.
8. The Executive Engineer may extend the dead line for submission of tender by issuing amendment, in which case all the rights and obligations of the Executive Engineer and the tenderer previously subject to the original dead line then be subjected to the new dead line.
9. All tenders received by the Executive Engineer after the deadline prescribed for submission of tender will be returned unopened to the tenderer.

CONTRACTOR

EXECUTIVE ENGINEER, TWAD,
PROJ.DN., RCWSS, TRICHY

Down loading the documents from web site.

If the documents are down loaded from the web site by the tender and offer their tender duly filled and signed along with all required documents to the tender inviting authority as notified in the Tender call notice subject to the following.

The bidder shall furnish a certificate to the effect that no correction / alteration on the bid document as found in the web site was made by him and he shall abide by all the terms, conditions and specifications contained in the original bid document.

No cost towards bid document shall be required to be paid by the bidders who are using the forms down loaded from the designated web site.

The bidder shall submit the tender to the tender inviting authority i.e., Executive Engineer, (Ramnad CWSS), Mutharanallur, Trichy.

VII. TENDER OPENING AND AWARD OF CONTRACT**Tender opening**

1. The Executive Engineer will open the entire tender in the presence of available tenderer or their representatives on the date at the time in the address specified
2. The tenderers' names, the tendered percentage over the departmental value and the presence or absence of EMD will be announced by the Executive Engineer at the time of opening.
3. Information relating to the comparison of tenders and recommendation for the award of contract shall not be disclosed to tenderers until the award of contract has been announced.

Award of Contract

1. The Executive Engineer will award the contract to the tenderer who has quoted the lowest percentage over the departmental value provided that the tenderer is eligible in accordance with the item no.5 in the check list for the contractors of this tender document
2. The Executive Engineer reserves the right to accept or reject any tender.
3. The tenderer whose tender has been accepted will be notified of the award of the contract by the Executive Engineer by registered letter.
4. The successful tenderer, if not registered with TWAD Board, shall get registered in TWAD Board.
5. Within 15 days on the receipt of the award of the contract, the contractor shall pay the security deposit as specified in the item 7 in the check list for the contractors of this tender document
6. The tender along with the SD, shall deliver a non judicial stamp paper of Rs.100/- (Rupees one hundred only) at his cost for executing the agreement.

CONTRACTOR

EXECUTIVE ENGINEER, TWAD,
PROJ.DN., RCWSS, TRICHY.

7. The work order will be issued only on production of ESI / EPF Registration numbers of the employees/ workers proposed to be engaged by the Contractor for Operation and Maintenance as per BP MS NO: 16 Dated : 28.02.2017

Signing of agreement

1. The Executive Engineer on receipt of the SD and non judicial stamp paper, will furnish to the tenderer the Agreement incorporating all terms and conditions between the Executive Engineer and the successful Tenderer.
2. Upon furnishing the SD by the successful tenderer, the Executive Engineer will notify the other tenderers that their tenders have been unsuccessful.
3. Failure of the successful tenderer to comply with the requirements of item 4, 5 & 6 of the Award of Contract para, shall constitute a breach of contract, cause for annulment of the award, forfeiture of the EMD and any such other remedy the Executive Engineer may take under the contract.

Amendment to the Agreement

Any amendment shall be issued by mutual consent between the Executive Engineer and the contractor only without any contrary to the tender conditions.

Forfeiture of SD

The SD is liable to be forfeited in cases where the contractor fails to carry out the work in accordance with the terms and conditions of the contract leading to termination of the contract.

VIII.LIST OF CETRTIFICATES

1. Certificate of Registration as contractor in TWAD Board/Govt.organisation
2. Signature of all partners/power of attorney
3. Income Tax clearance certificate.
4. Experience certificate in similar nature of work.
5. Certificate for evidence of access or availability of credit facility offered from the prescribed form.

IX. MANDATORY DUTIES OF THE CONTRACTOR

1. After taking over of the CWSS for maintenance, the contractor is the custodian of the CWSS.
2. Inspect the Alignment and to check presence of any illegal tapping in the alignment after takeover of the scheme for maintenance. If any found, it should be repoted immediately to the AE/AEE. He should take immediate action to remove the illegal Tapings for which the AE/AEE will co-ordinate. The total expenditure towards removal of the illegal connections vest with the contractor.
3. For any damages to the components of the CWSS made by any person / machinery and any illegal tapings, the contractor is solely responsible and the contractor should file FIR and give intimation to AE/AEE.

CONTRACTOR

EXECUTIVE ENGINEER, TWAD,
PROJ.DN., RCWSS, TRICHY

4. To ensure that the water is supplied to each beneficiary as per the designed quantity on normal condition
5. Must keep a copy of the relevant portions of the CPHEEO manual on Operation and Maintenance of Water Supply Systems at work site and carry out the O&M works in accordance to the guidelines prescribed in the Manual.
6. Should inform every day before 07.00 AM about the pumping status of the scheme from 6.00 AM of previous day to 6.00 AM of present day to the AE/AEE as per the prescribed format of online entry (beneficiary supply details)
7. In case of electricity during emergency / calamity, he should take immense action to restore the electricity. Generators may be utilized for pumping the Disgned quantity as and when required under approval of the EE and will be paid as per actual on submission of bills.
8. The Quantity and quality of water supplied to the beneficiaries is the essence of contract, the contractor is solely responsible for the supplied quantity. The contractor should ensure designed quantity of supply to all the beneficiaries as per per the scope. Contractor should maintain register showing the quantity of water delivered to each habitations as per design, duly signed by a responsible person / SHG / Tank Operator / Panchayat secretary of the local body concern and submitted to the Assistant Engineer before 26th of every month.
9. The Contractor Should make arrangements to obtain the invoice / bill for electyricity consumed and handover to the Assistant Engineer / Assistant Executive Engineerfor onwards submission and for making payment to EB office without delay.
10. Ensuring that adequate manpower is available round the clock to carry out the above tasks and to prevent entry of unauthorized persons.
11. The contractor has to train the labour employed in maintenance at his own cost.
12. If any labour is found to be unfit or disobedient to the instructions given by the TWAD Board officers, they should be replaced from work site immediately.
13. Operation on specified shifts / day and ensuring that back up teams would be available to take over during Sundays, Holidays and in the event of regular Operator / Labour absence including watch and ward.
14. Attendance should be maintained by the contractor and must be produced for verification as and when called for by the TWAD Engineers. The number of actual Labourers engaged for the maintenance of CWSS should be reported by the contractor to the Executive Engineer daily duly countersigned by the concerned Assistant Engineer and Assistant Executive Engineer.

CONTRACTOR

EXECUTIVE ENGINEER, TWAD,
PROJ.DN., RCWSS, TRICHY

15. The contractor has to provide decent uniform with name badge to their staff.
16. To Operate and maintain equipment with skilled staff so as to safeguard the equipments against single phasing, earth fault, phase reverse etc., in power supply.
17. To maintain plant and machineries, pump room and its premises, Pumping main and valves and Treatment Units as per the Schedule of Maintenance annexed as **Annexure II**.
18. The contractor shall carry out minor repairs as listed **Annexure-IV**
19. Operate and maintain capacitor and allied switch gear so as to maintain a power factor of not less than 0.90 prescribed by TNEB.
20. The power factor will not decrease or increase suddenly and hence the contractor should monitor daily. If any decrease in the power factor is noticed, it should be informed to the Departmental Engineers (concerned Assistant Engineer/Assistant Executive Engineer).
21. If Genset is in the scope of contract, Test run of Genset should be carried out for a minimum of 30 minutes per week while in idle condition or as recommended by the manufacturer / directed by TWAD Engineer. The required Diesel / Lube oil will be supplied by Board and the contractor should make necessary arrangement for conveying the same. However, in case of emergency, the contractor may arrange to purchase the required Diesel / Lube oil as directed by the Engineer in charge and the related cost will be paid as per actual on production of bills.
22. Make sure that the levels in the sumps are maintained in a safe required level and to ensure that overflowing of sump does not occur.
23. Care should be taken to prevent overflow of OHT.
24. The contractor shall maintain all registers under law towards attendance, salary of the workers, log book, etc. in the name of the contractor and the same shall be maintained and signed by the contractor and the same shall be periodically checked by the field engineers of officials of the Board above the rank of the field engineer.
25. Mandatory Regulations prescribed by CEIG and Inspector of Factories shall be followed without any lapse.
26. Each station should be provided with complete set of tools and equipments required for maintenance as listed in the **Annexure III**.

CONTRACTOR

EXECUTIVE ENGINEER, TWAD,
PROJ.DN., RCWSS, TRICHY

27. To adhere to safety measures as stipulated in **Annexure V**.
28. To adhere to the Contract welfare Laws whichever is as applicable to this scope of contract in **Annexure VI**.
29. The bidder should furnish his local office and residential address along with Telephone Nos, email id and mobile nos.
30. **Bills, Payment and Registers.**
1. The contractor should maintain the Attendance register, labour payment acquaintance register, EPF and ESI payment details specifically for this work and to maintain the log book in each and every pumping station.
 2. The contractor should pay the salary by the way of ECS (Electronic Clearing System) as per the payment of wages Act, 1936 to the workers before 7th day of the succeeding month.
 3. The contractor should pay the workers' insurance contribution amount immediately concluding the agreement in the concerned department and produce the same to Executive Engineer, TWAD Board.
 4. He contractor should pay the minimum bonus as specified in the labour act through bank to the workers engaged by him at his own risk and cost.
 5. The contractor should submit the bills to the section office on or before 7th of each month. Payment will be processed on monthly basis on receipt of bills from the contractor by following the Board's procedures.
 6. The contractor should submit the bill accompanied with the following documents.
 - i) Statement of work done by he Contractor
 - ii) Statement of wages of labours deployed him under the works contract, EPF/ESI no., statutory deductions etc.,
 - iii) EPF and ESI challans for previous month for employees working in TWAD Board alone.
 - iv. Wage payment sheet for the previous month.
 - v. Statement of material supplied by the contractor
 - vi. Copy of Labour Licence
 - vii. Challan of service tax payment (separate in respect of each works contract).
 7. If the contractor notwithstanding the labours mentioned in this agreement, the TWAD Board will not pay for the employees not engaged.

CONTRACTOR

EXECUTIVE ENGINEER, TWAD,
PROJ.DN., RCWSS, TRICHY

X DUTIES AND RESPONSIBILITIES OF MAINTENANCE CREWS

- 1) He shall hold full responsibility of maintaining pump room, pump sets, electrical motors and valves etc. as prescribed by the Board
- 2) To inform minor/major/repairs immediately to the field engineers and should be present at site until completion works of repair.
- 3) He shall have full responsibility for maintaining the maintenance schedule such as daily, weekly and monthly programmes.
- 4) He shall keep safety belt, gas mask, gas monitor and First Aid box to his custody and utilize whenever requires.
- 5) He shall be responsible for over all cleaning and keeping the station neat and tidy
- 6) To approach TNEB authority when power fails in TNEB structure / Board structure and ascertains early supply resumption.
- 7) He shall check up Power Factor everyday and to maintain at minimum 0.90 as prescribed by TNEB.
- 8) Field Engineers In charge shall be responsible to carryout mandatory duties of contractor in the individual pumping station.
- 9) Up keeping the equipments and installations in the pumping stations such as air blowing motors, control panels, gland packing, changing Engine Oil and maintenance of battery.
- 10) Recording Log Book every day for the pumpsets run including starting/stopping time of the pump sets.
- 11) Check the temperature/Noise of Running units and control panel
- 12) General cleaning of all equipments, buildings and the yard and keeping the premises clean and tidy
- 13) Record daily shift activity in log book.
- 14) Ensuring that staff is available round the clock to carryout out the above task and to prevent entry of unauthorized persons.
- 15) Provide gland packing for the pumps, sluice valve etc. whenever required to avoid leakage of water.
- 16) Watering of plant and tree
- 17) Operating of sluice valves and non return valves
- 18) To go along pipe line system and check for any leak, burst and damage to the pipe.
To inform TWAD Field Engineers immediately for rectification.
- 19) Must follow the instructions if any by the Engineers of TWAD Board.

ANNEXURE II
SCHEDULE OF MAINTENANCE

Item No.	Description of work	Daily	Weekly	Fort-nightly	Monthly
1	Pump House:				
1.1	Cleaning of site	?			
1.2	Cleaning of Pump House including Doors and Windows	?			
1.3	Cleaning of Panel Room, D.G. room etc.	?			
1.4	Check pump is operational	?			
1.5	Change over to stand bye pumps	?			
1.6	Record hours run	?			
1.7	Check operation of air release pipe	?			
1.8	Lubricating of Rolling Shutters			?	
1.9	De-weeding of Pump Room premises and removal of cob webs etc in the Pump Room.				?
2	H.T.Structure, Transformer yard and Transformers:				
2.1	Cleaning of transformer yard, removal of grass and plants	?			
2.2	Check up and water the earth pits		?		
2.3	Megger - earth resistance check in the earth pits				?
2.4	Check and operate the AB switch in the structure for its smooth operation and replace contacts if necessary		?		
2.5	Check up dropout fuses and H.G. fuses and replace if necessary	?			
2.6	Check up insulators and lightning arrestor in the structure and replace if necessary			?	
CONTRACTOR		EXECUTIVE ENGINEER, TWAD, PROJ.DN., RCWSS, TRICHY			

Item No.	Description of work	Daily	Weekly	Fort-nightly	Monthly
2.7	Check the transformer for any leakage of oil and top up if necessary		?		
2.8	Check the temperature of transformer oil from dial thermometer and record		?		
3	H.T. Panel:				
3.1	Clean the panel externally and internally using blower	?			
3.2	Carryout visual check of observe over all condition of the breakers and clean the breakers thoroughly	?			
3.3	Grease/Oil joints and sliding surfaces			?	
3.4	Check the internal connections			?	
3.5	Check the operations of doors and conditions of door gasket			?	
3.6	Check Volt Meter, Ammeter etc. in the panel for its working and replace if necessary	?			
3.7	Check all the indicator lamp and control fuses and replace if necessary	?			
3.8	Check the operation of relays			?	
4	LT Panel :				
4.1	Clean the panel externally and internally using blower	?			
4.2	Check all the connections for tightness			?	
<div>CONTRACTOR</div> <div>EXECUTIVE ENGINEER, TWAD, PROJ.DN., RCWSS, TRICHY</div>					

Item No.	Description of work	Daily	Weekly	Fort-nightly	Monthly
4.3	Check the contacts switches for tightness and apply petroleum jelly if necessary			?	
4.4	Check Volt Meter Ammeter and respective P.T. and CTS for its working and connection	?			
4.5	Check all the indicator lamp bulbs and fuses and replace if necessary		?		
4.6	Check operation of all switches and bush buttons		?		
5	CAPACITORS:				
5.1	Check all the capacitors for oil leakage if any	?			
5.2	Clean the insulator with dry cloth and check the connections for tightness			?	
5.3	Check the fuses and meggar the units?				
6	MOTORS:				
6.1	Clean the motor terminal box, check the cable connection to tightness	?			
6.2	Check body of the motor for firm connection			?	
6.3	Check the foundation bolt and nut for tightness	?			
6.4	Check normal sound and vibration	?			
6.5	Check the bearing grease and replace if necessary				?
6.6	Check air cooling fan for vibration and noise				?
CONTRACTOR		EXECUTIVE ENGINEER, TWAD, PROJ.DN., RCWSS, TRICHY			

Item No.	Description of work	Daily	Weekly	Fort-nightly	Monthly
6.7	Check meggar test for windings and earth				?
6.8	Cleaning of motor slipring, carbon brush, contacts and replace if necessary		?		
7.0	STARTERS AND OCB				
7.1	Clean the starter and check up the cable connection	?			
7.2	Check contacts and replace if necessary		?		
7.3	Check for cable connection		?		
7.4	Check for OLR and No volt coil		?		
7.5	Check the level of transformer oil in the OCB and top up if necessary			?	
8.0	MAIN PUMPS				
8.1	Outside Cleaning	?			
8.2	Check Bearing Temperature	?			
8.3	Check & Top up Bearing grease or replace grease				
8.4	Check gland for leak and add gland layer if required	?			
8.5	Replace gland packing completely				?
8.6	Check foundation nuts and bolts for tightness and rusting		?		
8.7	Check inspection covers and check condition of impeller				?
8.8	Check the pressure and pressure gauges on suction and delivery side	?			
8.9	Clean the pump pit and pump floor	?			
8.10	Check for coupling Bolts and nuts, coupling tyre and replace the tyre if required		?		
<div> <div>CONTRACTOR</div> <div>EXECUTIVE ENGINEER, TWAD, PROJ.DN., RCWSS, TRICHY</div> </div>					

Item No.	Description of work	Daily	Weekly	Fort-nightly	Monthly
8.11	Check for vibration and noise of the pump	?			
8.12	Pump out leaked water from the pump pit	?			
8.13	Check the condition of bearing oil and replace if required			?	
9	SUMP PUMP				
9.1	Check the pump for operation	?			
9.2	Check the coupling and replace if necessary			?	
9.3	Clean the starter panel externally and internally	?			
9.4	Check the fuses and contacts, apply petroleum jelly if necessary		?		
9.5	Check the foot valve and replace if necessary	?			
10	Diesel Generator Set, Battery and Emergency light:				
10.1	Clean the Battery, top up, distilled water in the battery if necessary	?			
10.2	Remove the connection of battery terminals, clean thoroughly and reconnect after applying petroleum jelly		?		
10.3	Clean the emergency lights internally and externally	?			
10.4	Check the light, indicator lamp for its proper working and attend if necessary		?		
10.5	Check fuel level in the diesel tank of DG set and top up if necessary		?		
<div>CONTRACTOR</div> <div>EXECUTIVE ENGINEER, TWAD, PROJ.DN., RCWSS, TRICHY</div>					

Item No.	Description of work	Daily	Weekly	Fort-nightly	Monthly
10.6	Check engine oil level in the D.G. set and add if necessary			?	?
11	OHT CRANES:				
11.1	Carry out thorough cleaning of crane including girders, trolley, platform other equipments and control panels			?	
11.2	Check all the cable connections for tightness		?		
11.3	Check contacts and fuses and replace if necessary		?		
11.4	Inspect gearbox for any leakage of oil				?
11.5	Check the connection of limit switch				?
11.6	Check panels internally and externally and apply petroleum jelly if required				?
11.7	Check the rope and apply grease if required				?
12	SUCTION & DELIVERY VALVES AND ACTUATOR:				
12.1	Check the condition of gland packing and tighten or replace if necessary	?			
12.2	Check actuator gear box for leakage		?		
12.3	Check the condition of limit switches			?	
12.4	Check the condition of oil and grease, replace if necessary			?	
12.5	Check the bolts and nuts for tightness			?	
<div>CONTRACTOR</div> <div>EXECUTIVE ENGINEER, TWAD, PROJ.DN., RCWSS, TRICHY</div>					

Item No.	Description of work	Daily	Weekly	Fort-nightly	Monthly
12.6	Check cable terminals at motor terminal box of actuator			?	
12.7	Check clutch and gear arrangement for manual operation				?
12.8	Apply grease to the spindle if necessary			?	
12.9	Check for free movement			?	
13	PIPELINE:				
13.1	Check the pumping main, branch pumping main, feeder main for any leak /burst /damage	?			
14.0	VALVES:				
14.1	Check the operation of non-return valve	?			
14.2	Check the disc for its smooth opening and closing operation		?		
14.3	Check the sluice valves	?			
14.4	Check the air valves	?			
14.5	Check the scour valves				?
15	SUMP:				
15.1	Check the cleaning				?

ANNEXURE.III

**EQUIPMENTS AND TOOLS TO BE MADE AVAILABLE
AT EACH PUMPING STATION**

Sl. No.	Description	Set/no.
1	Double end spanner (6 mm to 32 mm)	1 set
2	Screw driver (6", 8", 12")	1 set
3	Pipe wrench (14", 18", 24")	1 set
4	Cutting pliers	1 set
5	Long nose pliers	1 no.
6	Hammer (2 Kgs)	1 no.
7	Test lamp with 15m wire	1 no.
8	Megger (1000 V)	1 no.
9	Multimeter	1 no.
10	Tong tester	1 no.
11	Hacksaw frame with 3 nos. blade	1 no.
12	Spade (Manwetty)	2 nos.
13	Crow bar	1 no.
14	Sickles	2 nos.
15	Ring spanner (6mm to 32mm)	1 set
16	Caution Board (Men at work)	1 no.
17	Grass cutter	1 no.
18	Country knife	2 nos.
19	Iron chutty	2 nos.
20	Grease gun	1 no.
21	Wheel barrow	1 nos.
22	Torch light with 3 cells	2 nos.
23	Hand blower	1 nos.

CONTRACTOR

ANNEXURE IV

LIST OF MINOR REPAIRS TO BE ATTENDED

Minor repairs noticed in the maintenance of scheme should be reported to the AE/AEE in charge of the CWSS without any time lapse. The rectification work has to be carried out immediately as per the direction of the AE/AEE. Necessary entry for the repairs carried out has to be made in the register books concerned.

Electrical Works

1. Replacement of H.G. Fuses
2. Replacement of jumpers
3. Replacement of insulator (porcelain) – one phase
4. Replacement of A-B switch – one phase
5. Replacement of no-volt coil for A.C.B. and O.C.B.
6. Replacement of jumper with socket inside the panel
7. Replacement of cable lugs including terminations
8. Replacement of burnt-out H.R.C. fuses
9. Replacement of moving and fixed contacts or contactors Repairs to isolators

Pumpsets

1. Replacement of coupling bolt & nuts including rubber bushes
2. Replacement of worn-out impeller nut
3. Replacement of spindle nut in the sluice valve
4. Replacement of terminal plate in the motor
5. Replacement of carbon brushes and brush holder

Valves

1. Replacement of spindle nut in sluice valves
2. Replacement of glands in valves
3. Replacement of ball in air valves

DG Set

1. Replacement of burnt-out spares in the battery charger of D.G.
2. Rewinding of self-starter in the case of D.G.
3. Replacement of repairing of cut-out of D.G.

General

Replacement of bulb, choke, starter, etc.

Note: The old parts which have been replaced should be returned to the Board wherever applicable.

CONTRACTOR

EXECUTIVE ENGINEER, TWAD,
PROJ.DN., RCWSS, TRICHY

ANNEXURE V

SAFETY MEASURES TO BE ADHERED TO

1. All electrical safety equipments like hand gloves, testers and other electrical needs are to be provided by the contractor in the Pumping Stations as stated below:

Sl.No.	Name of Equipment	For	
		HT supply	LT supply
1	Safety belt with rope	2 nos	1 no.
2	Gas Mask	1 no.	1 no.
3	Shock proof hand gloves (11 KV grade gloves)	1 pair	1 pair
4	Disposable hand gloves	2 pairs	2 pairs
5	Gum boot	2 pairs	1pair
6	Electrical line tester	1 no.	1 no.
7	Earth discharge rod	1 no.	1 no-
8	First Aid Box	1 no.	1 no.
9	Emergency light	1 no.	1 no.
10	Fire Extinguisher	2no.	1no.
11.	Rubber Mat of suitable size	as per requirement

ANNEXURE.VII

**PENALTY FOR NON-COMPLIANCE TO SCHEDULE
OF WORK / MANDATORY DUTIES**

If the contractor fails to carry out any work or part of work/mandatory duties, the Board shall have the power to carry out such parts of work departmentally and recover such amount including 10% as the supervision charges from the progressive bills.

If the absentees of total labour are less than 20% mandays, recovery to be made at 1.5 times of labour rate (as per TWAD SR of the current year for respective category) for first week and at 2 times for the second to fourth week. If the absenteeism continued beyond fourth week and also absenteeism is more than 20% action to be initiated for termination of this contract by giving prior notice.

CONTRACTOR

EXECUTIVE ENGINEER, TWAD,
PROJ.DN., RCWSS, TRICHY

ANNEXURE.VIII

ROLE OF TWAD BOARD

1. A joint inspection will be had by TWAD Board with the contractor or his representative before handing over of the CWSS for maintenance.
2. The Executive Engineer to furnish the salient details and flow diagram of the CWSS to the contractor along with the list of habitations covered under the scope of this CWSS and the earmarked supply to them.
3. To check the number of employees engaged by the contractor as per agreement, Executive Engineer should get a daily labour report engaged by the contractor for maintenance of the CWSS from the contractor duly countersigned by the Sub divisional Field Engineers.
4. The Executive Engineer shall inspect / check the salary register maintained by the contractor on or before 10th day of every succeeding month for which the salary is paid, to verify whether the work man of the contractor are paid statutory wages due to the labour.
5. If the contractor fails to make any payments that may be due to their work man / labour and as a consequence, the principal employer, the Board is called upon as required to pay the same the said payment shall be recovered from the contractor from his dues, monthly running bills or otherwise or from his assets as may be decided by the executive engineer.
6. The breach of any of the terms of the agreement shall entitle the board to terminate the contract immediately without any notice, as also with holding of the dues payable to the contractor and the security deposit by the contractor till the amounts due to the board are recovered. In addition to this, the field officers/ Assistant Account officers/Executive Engineer should ensure that all the statutory requirements as per the license issued by the competent authority and all the requirements of the contract labour (Regulation & Abolition) act have been complied with by the contractor and a certificate to that effect may be directed to be incorporated by the concerned officer along with the running bill of the contractor when the bill is sent for passing/sanction before the competent authority. This is the only way to secure compliance of the terms of the contract labour (Regulation & Abolition) Act and the license issued there under by the competent authority, by fixing responsibility for verification there of on the concerned officers of the Board.
7. TWAD Engineers shall closely monitor the Power Factor. If variation is noticed, suitable direction has to be given to the contractor to improve the Power Factor.
8. Power Consumption charges will be paid by TWAD Board.
9. TWAD Board will arrange to provide the Telephone connection in the premises wherever found necessary and the entire telephone charges including the rent shall be paid by TWAD Board.

CONTRACTOR

EXECUTIVE ENGINEER, TWAD,
PROJ.DN., RCWSS, TRICHY

10. To conduct regular inspection to ascertain the effective functioning of system through the concerned field Engineers of TWAD Board.
11. Payment will be processed on monthly basis on receipt of bills from the contractor following Board's procedures.
12. The spares, grease, waste, glands for valves and fuse wires will be provided by the department.
13. If Diesel Generator (DG) set is maintained, supply of Diesel and Engine Oil etc. for DG set will be made available by TWAD Board.

ANNEXURE.IX

PAYMENT

Payment will be processed and paid to the contractor by following Board's procedures.

Any losses or damages to the properties of TWAD Board caused either due to slackness on the part of the contractor or his employees or due to improper operation of the system will be recovered from the contractor's bill of the subsequent month.

If the contractor fails to effect supply of the designed quantity to the habitations under the scope of this contract, unless and otherwise the cause is due to insufficient yield in sources, Power Supply, any natural calamity or any other reasons genuinely acceptable to the Executive Engineer, recovery will be made from the bill proportionate to the short supply against the earmarked supply.

Payment for the value of work completed in a satisfactory manner as per agreement will be paid. However, 5% (Five percent) of the value of work completed as per agreement will be withheld in every part payment. The 5% (five) of bill amount already withheld in the part bills will be released in the final bill and 2.5% (two and half) of the amount towards additional Security will be recovered in the final bill.

The above 2.5% amount towards additional Security deposit recovered in the final bill will be released after completing Six (6) months from the date of completion of work.

Income tax recovery:

During the course of the contract period, deduction of GST & income tax shall be made at the prevailing rates from every payment as may be specified by the GST & Income Tax Department.

Worker's Welfare Fund:

Worker's welfare fund and other taxes as specified by the Govt. Will be recovered.

In order to ensure, water supply to all the beneficiaries, the following payment schedule is also to be included.

CONTRACTOR

EXECUTIVE ENGINEER, TWAD,
PROJ.DN., RCWSS, TRICHY

- a) 20% of the BOQ/ Agt. value on pumping of the Earmarked Quantity + Transmission loss at Head works / Treatment Plant.
- b) 20% of the BOQ/Agt. Value on production of the evidence for having engaged the required number of laborers. Failing which the payment will be made only for the labours engaged actually.
- c) 20% of the payment on ensuring supply of Earmarked Quantity for the initial reaches beneficiaries fixed by the concerned Executive Engineer for the particular scheme.
- d) 20% of the payment on ensuring supply of Earmarked Quantity for the intermediate reaches beneficiaries fixed by the concerned Executive Engineer for the particular scheme.
- e) 20% of the payment on ensuring supply of Earmarked Quantity for the tail end beneficiaries fixed by the concerned Executive Engineer for the particular scheme.
- f) In case of ascertaining any short supply by the field Engineers in quantity of supply to be made to the Beneficiaries, then 90% of the payment only will be made proportionately, (Initial, Intermediate & Tail end reaches as finalized by the Executive Engineers of the concerned scheme/package) as below:

$$\text{Bill Claim amount for Supply based portion of BOQ/Agt.} = 90\% \times (\text{BOQ/Agt. value for the reaches Concerned}) \times (\text{Served qty in KL})$$
